Skills
Python
SQL
PyTorch
Docker
Kubernetes
AWS
MLflow
scikit-learn
XGBoost

Education
B.Tech in Computer Science, Delhi Technological University, 2019

Summary

Machine learning engineer working on forecasting and recommendation systems for retail.

Experience

Machine Learning Engineer
Tamarind Commerce
Mar 2022 - Present

- Built demand models in PyTorch and served them with Docker on Kubernetes across four regions
- Designed feature pipelines in Python and SQL feeding nightly training and evaluation jobs
- Introduced MLflow experiment tracking and model registry adopted by three product teams
- Mentored two junior engineers and ran the weekly model review

Data Scientist
Juniper Mobility
Jul 2019 - Feb 2022

- Developed churn and pricing models with scikit-learn and XGBoost on AWS
- Wrote SQL pipelines and dashboards used by the marketing analytics team
- Ran A/B testing for app onboarding experiments with product managers
